Module M — Access to common resources (short block) (9 questions)

Read aloud before this module: Last, a few questions about the forest and common land around where you work — firewood, fodder, grazing and water. Some of this is not allowed in some places, and that is a perfectly good answer: we only want to know what is possible and what is not. Nothing you say goes to the Forest Department or to anyone else, and you can leave any of these out.
